Do you know the story  
„The journey of grain“?  
This story has a new hero:  
**THE MILL TRUCK**

Our innovative mobile solution - **THE MILL TRUCK** –  
makes it realistic to process grain at every possible place.

# Not the grain will move to the mill – the mill will move to the grain.

Traditionally, the grain always had to move to the milling stone. Now the grain may wait for the mill to come.

# THE MILL TRUCK

No cost for grain transporting

Operated by only 2 persons

**Why THE MILL TRUCK?**  
Global climate changes with  
drought and flood

**Why THE MILL TRUCK?**  
Military conflicts and  
worldwide migration

**Why THE MILL TRUCK?**  
High transportation risks

**Why THE MILL TRUCK?**  
30% to 40% less investment  
- more people can be helped

**Why THE MILL TRUCK?**  
For an economic use of  
grain which was received  
under harsh conditions

**Why THE MILL TRUCK?**  
Production of flour the whole  
year – not only during  
harvest period

**Why THE MILL TRUCK?**  
Lack of private and public  
fonds for major investment

A close-up photograph of several round bread loaves in various stages of baking. In the foreground, two loaves are on a metal cooling rack; one is light-colored and the other has a golden-brown crust. Behind them, more loaves are visible, some with a bright yellow glow from the oven lights and others with darker, more browned tops.

Why THE MILL TRUCK?  
All for the daily bread...

...essential for our life
